

Resume

Name: Chavan Akshaykumar Ramu

E-mail: akshay.c7575@gmail.com

Contact No: +91-7083757513

Summary:

Highly accomplished Senior Software Engineer with 4.5 years of combined experience in automotive infotainment. Specializing in Android Automotive OS (AOSP) framework development (upper layers) and application development. Proven expertise in integrating complex vehicle-related features like Map in Meter, Alexa, vehicle settings, and HVAC control. Skilled in surface rendering for display systems and proficient in delivering robust, user-centric solutions. Seeking to leverage technical acumen and project experience as a Technical Lead or Senior Software Engineer in a dynamic automotive environment.

Technical Skills:

Programming Languages	: Kotlin, Java, C++
Operating Systems	: Android Automotive (AOSP), Embedded Linux Windows, Ubuntu
Database	: SQLite, MySQL, Microsoft SQL server
Communication Protocols	: CAN, Ethernet, USB, Bluetooth, Wi-Fi
Tools & Methodologies	: Git, Jira, Confluence, Agile/Scrum, Android Studio, Debugging
Software Architecture	: MVVM, MVP, Design Patterns, OOP
Infotainment Technologies	: Android Auto, Apple CarPlay, Vehicle HAL, IVI Frameworks, HMI/UI Development
Vehicle Features	: Vehicle Settings, Meter Cooperation, Map in Meter, Alexa Massage Seat, Seat Adjustment, Power Flow, Trip Computer, Cabin Talk, HVAC Control, Data Transfer

Experience:

- **Sr. Software Engineer**
KPIT Technologies Ltd.
04/2023 – Present
 - Led development on the upper layers of the Android Automotive OS (AOSP) framework for next-generation infotainment systems.
 - Developed and integrated a wide range of vehicle-specific features, including: Vehicle Settings, Meter Cooperation, Map in Meter (including surface rendering from ICB), Alexa voice integration, Massage Seat, Seat Adjustment, Power Flow, Trip Computer, Data Transfer (ICB to Meter), Cabin Talk, and HVAC controls.
- **Associate Developer – Mobility**
Prowess Selling Skills Pvt. Ltd. \ Kloudq Technologies Limited.
02/2021 – 04/2023
 - I have good experience in handling and developing the android applications.
 - Fully encouraged and experienced with the technologies like Rest API, JSON, Retrofit, Postman, MVVM etc.
 - Worked on Android studio and Android SDK.

Projects:

○ **Automotive Infotainment System**

- Led development on the upper layers of the Android Automotive OS (AOSP) framework for next-generation infotainment systems.
- Developed and integrated a wide range of vehicle-specific features, including: Vehicle Settings, Meter Cooperation, Map in Meter (including surface rendering from ICB), Alexa voice integration, Massage Seat, Seat Adjustment, Power Flow, Trip Computer, Data Transfer (ICB to Meter), Cabin Talk, and HVAC controls.
- Spearheaded the implementation of Map in Meter functionality, focusing on efficient surface rendering for seamless data display from the Instrument Cluster Board (ICB).
- Collaborated extensively with cross-functional teams (UI/UX, System, Backend) to define requirements and ensure robust integration of complex vehicle functionalities.
- Contributed to architectural discussions and code reviews, ensuring high code quality and adherence to best practices in Android Automotive development.
- Mentored junior engineers on AOSP framework specifics and automotive domain challenges.

○ **Kloudbeat -- Field force Automation Product.**

- Kloudbeat is a field force automation software which tracks and manages your start to finish deals mechanization giving you a clear visibility on the efficiency of your distributors, retailers, and other key influencers.
- It is a one-stop-solution that helps you to efficiently track and manage your secondary sales to get clear visibility on Market Demand for your products, and productivity of your Sales Force Team.
- **Technical Skills :** Android SDK, Java, JSON, REST API, SQLITE , Data Binding.

○ **Retailer App**

- Retailer app is a Retailer Personalized application with advanced bonding programs and real time communication being the USP, which tracks and manages retailer's complete information.
- retailer app which has the facility to take order and redeem rewards depending upon RBP points calculated
- **Technical Skills :** Android SDK, Java, JSON, REST API, SQLITE , Data Binding.

○ **KloudPrime**

- Our KloudPrime Solution (DMS) helps you to efficiently implement primary sales automation with continuous replenishment methodology, thereby enabling you to stay on top of your market trends and focus on newer revenue streams.
- **Technical Skills :** Android SDK, Java, JSON, REST API, SQLITE , Data Binding.

○ **Influencer App**

- Industries across the segments like Manufacturing, FMCG, Consumer Durables, Retail, Pharma and other comparable enterprises have a dissemination channel involving normal order taking process from retailers and they get awarded by companies through rewards or loyalty points and influencers get dependent on retailers for the coupon money and rewards but going forward influencers are now more interested to get direct benefits from the companies and their word of mouth promotions are very effective for final consumer.

Education:

Examination	School/College Name	Board/ University	Year	Percentage
Bachelor of Computer Science & Engg.	Yashoda Technical Campus, Satara	Shivaji University	2017-20	81.29
Diploma in Computer Engineering	Vidyavardhini Institute of Technology, Pal (Gargoti)	MSBTE	2014-17	71.06
SSC	Shri Shahu Kumar Bhavan, Gargoti	MSBSHSE	2013-14	68.69
